Unbias: Minigame von OutOfTheBox, 2020

Ein Minigame von OutOfTheBox (Susanne Schuster und Ricardo Gehn), gefördert durch das Kulturbüro der Stadt Hannover. In Kooperation mit dem Kulturzentrum Pavillon Hannover im Rahmen der Programmreihe „Alan – Alaine“, gefördert durch die Stiftung Niedersachsen.

A miniature scene featuring several white, stylized human figurines on a black base. The background is a dark, textured surface with faint, glowing patterns resembling a circuit board or a technical diagram. The lighting is dramatic, with a strong light source from the left, creating a bright glow and casting long shadows. The overall mood is mysterious and technical.

Prozedurale, non-lineare Erzählungen
